

MWT-2101S

WALK THROUGH METAL DETECTOR

Walk through metal detector is used to check metal objects hidden in the body, such as guns, controlled knives, etc. It is available for all security entrances.

FEATURES

- LCD screen with infrared remote controller
- Anti-interference function
- 24 detection zones with 255 degree sensitivity level
- International leading digital pulse counting with stable performance

TECHNICAL DATA

Power Supply	AC150V~242V/50±5%HZ
Power Consumption	≤13.8W
Alarm Sound Intensity	≥98db
Detection Zone	24 zones
Inner Size	2000mm*710mm*500mm(H*W*D)
Outer Size	2230mm*830mm*580mm(H*W*D)
Package Size(2 cartons)	820*480*300mm, 2340*680*260mm
Net Weight	65kgs
Gross Weight	75kgs
Working Environment	Temperature -20°C - +55 °C
Humidity	0-95% non-condensing

FUNCTIONS

- **LCD Backlight:** 0~99S display time continuously adjustable
- **Recognition Function:** Identify the size of the measured object
- **Detection Zone:** Set single or multi-zone continuous accurate alarm by needs
- **Self-diagnosis Function:** Built-in self-diagnosis program, power-on self-test, prompt error
- **Counting Function:** Count passenger flow intelligently and alarm technology functions.
- **Passing Speed:** Can be adjusted from the fastest 100 people / min, custom adjustment detection speed
- **Networking Function:** Can be connected to a computer, can manage multiple devices at the same time, realize remote parameter setting/query function
- **Safety Standards:** In line with the current international safety standards, using weak magnetic field emission technology, harmless to pacemaker wearers, pregnant women, floppy disks, video recordings, etc.

APPLICATIONS

- **Government:** Military, Public Security Organizations, Procuratorates, Courts, Prisons, Detention Centers
- **Traffic:** Airports, Customs, Stations, Metro
- **Civilian:** Factories such as Hardware, Electronics, Jewelry, Coinage or large company
- **Others:** Mines, Stadiums, Exhibition Venues, Entertainment Venues, Large Gatherings
